01 PROFILE

I'm a Full-Stack Web Developer working with JavaScript, React, Next.js, Redux, Node.js, Express, MongoDB, PostgreSQL. And also utilizing deployment tools like Heroku, Netlify or Vercel. I've also tried GCP and AWS with a bit of CI/CD pipeline. I can't wait to learn more stacks and keep experimenting on new tools. You can see my portfolios on [ahmadmarzuki.com](#) and [github.com/amadzuki](#).
